DOUBLE WINNER

Top Long Distance Ace

BPDF 5540-14

SANPO Bronze Medal
Winner - long distance

BPDF 4606-17

1st Gold Medal Winner
& Silver Winner

* GFL 829-2017 - SUN MASTER. Father to GFL PRIDE (GFL 1200-2022) - 30th Place Afrika Pro Premier One Loft Final Race Winner 2023 - against 960 pigeons from 601 km.

* GFL PRIDE is bred off the best winning genetics that you can find on this pedigree. Father is SUN MASTER (GFL 829-17) is off a full brother to SAID IN SPUN SILVER - the 2nd Place South Africa Million Dollar Final Race Winner (came with the winner). SAID IN SPUN SILVER is also the grandfather to the 1st Place South Africa Million Dollar Final Race Winner - LAURA IS A BIG WINNER TODAY (GFL 267-15).

* Also on the father's side you have SUN CITY - the only pigeon ever to breed two 1st place South Africa Million Dollar Final Race Winners - with two different hens from 2 different countries. Doubtful if this achievement will ever be duplicated.

* Plus HALOVER - the 1st Place South Africa Million Dollar Final Race Winner and grandmother to many top prize winners and race winners. So you see, genetics play a big part in winning big one loft races!

* ZACRU 1955-21 - JULIA. Winner of the prestigious Afrika Pro Final Race from 601 km and winning \$170,000 USD. This hen has winning blood running through her veins. Study her pedigree carefully and see how many ace pigeons and medal winners are in her pedigree.

* JULIA's father - DOUBLE COMBINE WINNER (ZA 82880-18) was a super racing machine winning 2 combines racing up to 5,000 + pigeons. Many top prize winners and outstanding breeders are down from JULIA's father.

* JULIA's mother - CRACK HEN - bred the SANPO Bronze Medal Winner Long Distance. She is also the grandmother to SUPER SCHALLIE - bred the 10th Place Final Winner in the Afrika Pro Races. They are line bred to the CRACK ALBRECHT hen which was imported by Gys Louw and is the legendary breeding line in South Africa making numerous fanciers champions.

* JULIA is a champion 1st Place Winner and now a top breeder in 1st year of breeding. Thanks to Kings & Gys Louw for making this possible.
